OUR

PRESCHOOL

KENT Montessori program focuses on leveraging innate childhood traits to develop a child's full potential. These traits include curiosity, creativity, self-discovery, the need for order, and the desire to respond to sensorial input. Our prime role is that the journey of our children is planned meticulously in order to provide an excellent foundation to foster positive attitude towards learners.. KENT Montessori education is child-centered, with curriculum developed around the needs and abilities of the child.

ABACUS PROGRAM

The Abacus program teaches our learners how to use the abacus calculation tool by sliding counters along rods or grooves, to perform mathematical functions. In addition to calculating the basic functions of addition, subtraction, multiplication and division, the abacus can calculate roots up to the cubic degree. This is very important for our learners in sharpening and enhancing their thinking process in and outside the school.
